

Rodan
drawn by TOM
3 yrs old

for the child in us!

HELLO !

Because I love sharing my craft-obsession with others, I created this free tutorial with a printable pattern that you can use to make your very own Roadan.

1. Cut out all 10 pieces from a piece of cardboard or paper with all the markings and trace patterns onto your favorite fabric.
2. Cut out top and bottom pieces (body and wings) outside the lines, with a 5 mm seam allowance.
3. Stitch the wings together on reverse; turn around and stuff with polyfill
4. Pin wings and hair facing inward on the right (outer) side of the body top,
5. Create the eyes with embroidery or buttons
6. Stitch the body, turn and stuff through the opening
7. Handstitch the opening to close.

Enjoy your first hand-made Lutopian or give your new buddy to a special friend!

xo,
Lu
